Extremely valuable research was also conducted during the war in Toronto University and other Ontario universities which resulted in outstanding contributions, particularly in electronics and military instruments.

Recognizing the need for co-ordination of all research bodies, including the Research Foundation, research in the universities and colleges, together with the wide field of research organizations under private direction, a Royal Commission on Research was appointed during the past year. This Commission has brought together research specialists interested in all aspects of research throughout the province. This Commission will present an over-all picture of research, and its recommendations will be directed to the most effective co-ordination and stimulation of all essential research activities throughout Ontario. The Commission already has done excellent work.

In addition to a number of statutory amendments designed to aid the administration of justice, measures will be introduced to improve police services

throughout the province and in particular to provide improved policing for rural areas.

The Liquor Authority Control Act (1944) will be amended to improve the licensing and controlling of licensed premises.

The Real Estate Brokers Act will be revised to provide for the licensing and control of business brokers and generally to improve the provisions of the Act.

My government has taken many steps to improve the business management of our forests throughout the past year. The insect laboratory at Sault Ste. Marie has been completed. Last year the Ontario Department of Lands and Forests conducted the world's largest program of forest spraying from the air. The new ranger school was opened in Haliburton. Fire prevention lectures were conducted throughout the north. The Air Patrol Fleet was strengthened and forest protection services greatly increased.

A Royal Commission has been appointed to study all aspects of forest management and forestry practices so that this province may have the benefit of information now available from the other nations with wide experience in forest management, as well as our own accumulated experience throughout the war.

Reforestation will be greatly intensified now that the war is over, and a new forest nursery will be built at Kemptville.

Advanced methods of aerial mapping and ground surveys are being utilized to provide a perpetual forest inventory. Such an inventory is a basic requirement for efficient management of our forest areas.

The agricultural industry of Ontario has made a magnificent contribution in the past year to the required supply of foodstuffs for our own people, for the people of Great Britain and the liberated countries of Europe. In spite of unfavourable weather conditions, shortage of labour and machinery, the production on the farms of Ontario was well maintained, particularly those important livestock and dairy products which constitute an important part of our production for export. It is particularly gratifying to learn that there has been a steady improvement in the quality of farm products, notably in butter and hogs. A continuation of this improvement is essential to the maintenance of export trade in the years ahead. In the production of cattle, hogs, calves, poultry, eggs, cheese and milk, Ontario led all provinces in the Dominion. This diversification of our agriculture has contributed greatly to the stability of farming conditions in this province.

In a determined effort to cope with the animal diseases which have been causing serious losses to the farmers of Ontario, research and investigation have been intensified at the Ontario Veterinary College and the Ontario Agricultural College during the past year. Research in connection with plant diseases and the newer types of insecticides and fungicides will be extended during the present year so that farmers may receive all possible assistance in destroying those enemies of crop production.

The need for increased facilities for cold storage and for the extension of farmer co-operatives has been recognized throughout the province, and many new projects have been completed or put under way. Under The Co-operative Marketing Loan Act, loans of approximately \$300,000 will have been made during the fiscal year of 1945-46. So that this activity may be still further expanded, legislation will be introduced to amend this Act to increase the amount of loans which may be made to co-operative cold storages from \$50,000 to \$65,000, and to co-operatives other than cold storages from \$5,000 to \$15,000.

Legislation will also be introduced to provide for the construction and operation of a wholesale fruit and produce terminal in the Toronto area, and to provide for setting up a board to manage and operate this market.

Amendments to The Farm Products, Grades and Sales Act, and to The Farm Products Control Act, will be introduced. Under the former Act, it is proposed to provide for regulations to license all persons engaged in the marketing of farm produce or operating a fruit market. Amendments to The Farm Products Control Act will clarify certain provisions of marketing schemes already in force under this Act.

Legislation will also be introduced to continue the provincial subsidies on cheese, hogs and sugar beets, as a means of maintaining the highest possible level of production required to meet the critical food shortage throughout the world.

Amendments will be introduced to The Weed Control Act, to provide for the appointment of weed inspectors by county councils instead of by township councils in an effort to improve enforcement of the Act and provide for a more active campaign for the eradication of the costly weed menace. This legislation will also make provision for the annual licensing, at a nominal fee, of all persons who operate seed cleaning plants in the province.

While the Department of Game and Fisheries has been able to maintain essential services during the war years, considerable expansion will be necessary to keep pace with the ever-increasing demand for an expansion of our game and fish population.

Added hatchery facilities are being provided, and a number of employees are being trained in our universities so that the department may benefit by additional technical and biological knowledge. In addition, classes of instruction are being provided for those who will be added to the staff to carry out the field work which is necessary.

The termination of hostilities and the lifting of travel restrictions brought Ontario its greatest influx of visitors from the United States in any of the war years. During 1945, this province was host to more than 2,600,000 parties of motorists from the United States, and it is confidently expected that the coming year will see this figure very greatly increased. Realizing the importance of the tourist industry from an economic and recreational point of view, it is the intention of my government to take vigorous steps to place this industry upon a sound basis through the extension of facilities to our visitors and the general improvement in standards of accommodation. To this end a bill will be introduced to create a new department of government in which will be vested the responsibility for the development and supervision of our tourist activities.

The Department of Health continues its extension of both direct and indirect services. Increased maintenance grants to public general hospitals have been made available to certain designated hospitals and it is planned to extend the principle of an arbitrarily fixed per diem grant for public ward beds to all such hospitals. These increased grants and the improvement in accounting methods which will be encouraged by the system adopted should help to improve hospital standards throughout the whole province. Increased grants for maintenance have also been extended to all sanatoria throughout the province. Some relief from the overcrowding in Ontario Mental Hospitals has been made possible by the return to the Department of Health of the Ontario Hospital at St. Thomas. The acceptance of the principle of larger units for public health administration continues satisfactorily. Six additional county health units have been established during the past year, and five more counties have formally undertaken to establish such units. Experiments will be conducted under departmental auspices in the City of Kingston by the Ontario Cancer Treatment and Research Foundation in conjunction with the Kingston General Hospital, with the object of establishing more adequate control of cancer treatment. Increased laboratory services, extended examination of the health problems of employed workers, and extension of the venereal disease control program, are also projected.

During the past year the Department of Public Welfare made successful arrangements for the safe return to their homes of the majority of the British children who became guests of Ontario in 1940.

To eliminate the necessity of terminating Mothers' Allowance immediately after a child reaches its sixteenth birthday, although this may be in the middle of the school term, amendments will be made to The Mothers' Allowance Act which will enable the continued payment of allowance in such circumstances until the conclusion of the school year. An amendment will also be introduced to overcome certain hardships so that a deserted mother may qualify for an allowance when her husband has not been heard of for at least one year.

Legislation will also be introduced so that the valuable services of Day Nurseries may be continued under the supervision of the Department of Public Welfare.

Wartime conditions which prevailed during the greater part of the past year limited the work of the Department of Highways almost entirely to maintenance operations. The easing of manpower and equipment controls during the closing months of the year made it possible to resume many activities which had of necessity been curtailed during the war. The progress of light bituminous surfacing, carried out with such marked success during the previous year, was continued and more than 200 miles of gravel roads were surfaced. A number of important aids to the safe operation of motor vehicles, such as the painting of pavement markers and guard rails, were resumed after several years suspension while paint and other materials were not available. Replacements were obtained for a limited number of snow plowing units and these, with some additions acquired from surplus military stores, relieved what had become a very critical situation. Increased financial assistance in the form of interim payments of subsidy and the extension of the 75 per cent subsidy on bridges to include those on suburban roads was extended to the municipalities. County and township road expenditures subsidized by the Department were substantially increased over the preceding year.

In the coming year, it is proposed to resume essential construction projects which were suspended at the outbreak of war and also to carry out a program of maintenance work to restore road surfaces and structures to a satisfactory condition. Particular attention will be given to the relief of congestion on those highways having traffic volumes beyond their present safety capacity. New highways will be constructed to meet the requirements of greatly expanded mining and lumbering activities throughout Northern Ontario. Proposed amendments to The Highway Improvement Act and The Highway Traffic Act are of a minor character to adjust both Acts to changed conditions following a war.

The Minimum Wage Act will be broadened in scope and schedules of pay and hours of work will be brought more in line with present requirements. Regulations already designed to increase rates of pay and guarantee greater security to the women workers of this province will be put into effect immediately.

A new departure for this province will be a minimum wage for men which should prove of great value to the unskilled and semi-skilled workers.

The Hours of Work and Vacations with Pay Act came into effect on the 1st of July, 1944. It was very difficult to fully implement this legislation during the war without disrupting the vitally necessary production of war materials, but at the termination of hostilities this Act was brought into complete operation as far as possible. The Act will be further strengthened by some amendments.

An amendment respecting holidays with pay will be introduced which will carry into all industry the pro rata basis of two per cent which was adopted in the Building Trades and which worked so successfully. It is interesting to note that in the Building Trades alone over fifty-thousand vacation credit staff books were issued and cashed in the various banks of the province. Both employees and management are to be congratulated on their splendid co-operation in the administration of this Act. The banks also were of great assistance in auditing and handling the payment of this large volume of vacation money.

The Factory Inspection Branch has been enlarged by the addition of a number of inspectors and as a result there has been a satisfactory extension of the protection of the health and welfare of our people.

The serious explosion in a grain elevator at Fort William made it apparent that new regulations controlling this type of operation were essential. Much work has been done in designing these new regulations. As a result of conferences conducted by the Department of Labour, regulations will soon be introduced which will remove as far as possible the hazards which exist in this particular industry.

Apprenticeship activities increased tremendously during the war and much progress is being made in replenishing the depleted supply of trained mechanics throughout the province. This branch is co-operating to the fullest extent with the Dominion Government in this endeavour. Thousands of young men are being launched into the skilled trades and this training will be of great benefit not only to them but to the province as a whole.

The Workmen's Compensation Act has been greatly broadened in scope and has given the protection of this legislation to many thousands of additional workers. A broader interpretation of the Act has been adopted as a policy to eliminate as far as possible any injustices, and an amendment will be introduced to place medical aid under the jurisdiction of the Board and also bring all medical aid under Schedule One. This is a satisfactory step forward in guaranteeing the best medical attention and aid which it is possible to procure in the interests of the injured workman.

An amendment will be introduced further facilitating the operation of the Ontario Labour Relations Board by the appointment of a Vice-Chairman. This has become necessary in view of the great volume of business which this Board is called upon to handle.

You will be gratified to learn that although there was a decline in the output value of the Ontario mining industry for the year 1945, nevertheless the industry is witnessing a period of very great activity. The aggregate output value dropped from \$210,000,000 in 1944 to \$200,000,000 in 1945. This recession resulted from a continued drop in the output of the gold mines, resulting from wartime conditions as well as a cut-back by the nickel-copper industry because of the termination of hostilities. These two branches of the mining industry account for more than 80 per cent of the total production value.

The gradual return of peacetime conditions is bringing about tremendous activity and development work particularly in gold mining. Vast amounts of capital are finding their way into this industry. The search for new mines is spreading across the full breadth of Northern Ontario and many important discoveries have been reported in the past year. A number of new mines have been indicated by diamond drilling. Plans have been completed by many companies to commence shaft sinkings and underground work. New mines will mean new employment and population in sections of the province which are still almost entirely unopened.

Faced with increasing demands, the Department of Mines is making additions to its technical personnel. My government is fully aware of the importance to Ontario of an expanding mining industry and is making provision for the development of Northern Ontario. It is providing public funds to further encourage and facilitate the development of our natural resources. It is desirable that there should be a more equitable taxing system and a fairer distribution of the tax revenues derived from the mines. It is the hope of my government that an agreement will be reached shortly providing for a settlement of the outstanding questions between the Dominion and Provincial Governments relating to the whole question of mine taxation.

Amendments will be introduced to The Mining Tax Act, The Mining Act, Damage by Fumes Arbitration Act, and The Beach Protection Act.

The Department of Municipal Affairs estimates that a further reduction of \$21,660,000 in the debenture debt of the municipalities will be shown for the year 1945. This is a reduction of 54.2 per cent of the gross debenture debt as it stood in 1932. This achievement by the municipalities in the Province of Ontario is unsurpassed anywhere in the Dominion with respect either to the amount or percentage of reduction. Because of this improvement, interest rates for municipal borrowing are being arranged at the lowest figure in the history of the province.

Two bills will be introduced to provide for the organization of planning authorities in urban and rural areas. The Planning Bill will provide for the establishment of Planning Boards, for planning in urban municipalities and for means to control land areas, and to permit expropriation for housing purposes.

The Conservation Authorities Bill will enable the setting up of authorities in watershed areas with power to formulate schemes for flood control and the conservation of natural resources with adequate powers to carry out these schemes.

Legislation will be introduced to amend The Parole Act and The Industrial Farm Act. The provincial institution at Galt, which had been loaned to the Dominion Government for war purposes, has been returned to the provincial authorities and is now being used for the training of younger children sent to the Ontario Training School for Boys.

A new Vital Statistics Act will be introduced providing an improved procedure for handling our vital statistics.

In the final months of the war, the power load of the Hydro-Electric Power Commission of Ontario reached an all-time high of 2,608,000 horse power. There is cause for satisfaction that through nearly six years of war all the power demands for war activities in Ontario were fully met, and with the co-operation of the people of Ontario essential domestic and municipal requirements suffered no serious shortage.

Since V-E Day, the lifting of restrictions and the return to standard time have increased domestic and municipal use of electrical energy and offset the recession of load by certain war industries. Month by month, the primary load of the Southern Ontario System has continued to exceed the loads recorded for the corresponding months of the previous year, with the result that the energy generated and purchased by the Commission during 1945 again reached an all-time high of nearly 12,500,000,000 kilowatt hours, some 45 per cent greater than for the year 1939.

This situation makes the provision of additional power supplies an urgent problem. For that reason, the past year was one of intensive planning rather than construction. The Commission's plans for the next few years include the construction of one large and three medium-sized power plants with an aggregate capacity of 537,000 horse power. Together with associated transmission lines and other equipment this program will involve an expenditure of about \$112,000,000.

In the Thunder Bay district the Commission completed an additional unit of 19,000 horse power at its Alexander generating station on the Nipigon River.

In connection with rural electric service the lifting of restrictions enabled the Commission to construct 1,073 miles of lines and there was a net increase of 11,442 in consumers. Shortage of materials and labour prevented full advantage being taken of the improved situation.

Stimulated by rate reductions incorporated in the new uniform rural rate structure and by other rate reductions made in 1945, the use of power in rural areas increased by nearly 13 per cent. In August last the record load of 132,000 horse power was the highest ever recorded.

With labour again available in the mining centres, existing mines began to increase production and new properties requested contracts for power supply. To provide for this the Commission, in connection with the Northern Ontario Properties, which it operates for the government, plans for new transmission lines and transformer stations and will need to augment its power supplies in the near future. The acquisition of the power system of the Northern Ontario Power Company substantially enlarges the scale of physical and financial operations of the Northern Ontario Properties.

The gross earnings of the Temiskaming and Northern Ontario Railway during 1945 increased by approximately one quarter of a million dollars over those of the preceding year. The increased rate was due mainly to the growing demand for forest products. During the war years it was not possible to purchase new rolling-stock or equipment. Orders have now been placed for 600 box cars and three Diesel electric locomotives. Plans have been made to provide water transportation on Lake Nipissing and Lake Temagami.

The full statement of the province's financial position will be presented to the Legislature at the time of the introduction of the Budget. Recent judicial interpretations, as well as need for clarification necessitate amendments to some of our taxing statutes.

The Public Accounts for the year ending March 31st, 1945, have been issued and the estimates for the fiscal year 1945-46 will also be submitted for your consideration and approval.

In conclusion, I wish to express the hope that Divine Providence may so guide your deliberations here that your work will promote the general welfare and happiness of all the people of Ontario.

Copy of an Order-in-Council approved by the Honourable the Lieutenant-Governor, dated the 13th day of March, A.D. 1946.

The Committee of Council have had under consideration the report of the Honourable the Minister of Mines, dated March 11th, 1946, wherein he states that by virtue of the provisions of The Mining Tax Act, being Chapter 28, R.S.O. 1937, the mines, mining locations, mining claims, mining lands, and other lands and mining rights mentioned in the list hereto attached have been forfeited to and vested in the Crown in the right of the Province for default of payment of taxes imposed by the said Act as declared by Certificates duly issued under my hand and seal as Minister of Mines, and registered in the proper office of the Local Master of Titles, or Registrar of the Registry Division.

It is provided by the said Act that no lands or mining rights forfeited and vested in the Crown under the said Act shall be open for location, staking out or recording as a mining claim unless and until declared so open by Order of Your Honour in Council.

The Honourable the Minister of Mines recommends that the mines, mining locations, mining claims, mining lands, and other lands and mining rights mentioned in the said list be declared to be open on and after the Fifteenth day of April, 1946, at the hour of twelve o'clock noon, central standard time, for lands and mining rights in the Districts of Kenora and Rainy River, and twelve o'clock noon, eastern standard time, for lands and mining rights in the other and remaining Districts.

The Committee of Council concur in the recommendation of the Honourable the Minister of Mines, and advise that the same be acted on.

Certified,

C. F. BULMER,  
Clerk, Executive Council.

We, His Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to His Majesty's person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled "An Act for granting to His Majesty certain sums of money for the Public Service of the financial year ending the 31st day of March, 1946, and certain sums of money for the Public Service of the financial year ending the 31st day of March, 1947".

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:

"The Honourable the Lieutenant-Governor doth thank His Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in His Majesty's name."

His Honour was then pleased to deliver the following speech:

*Mr. Speaker and Members of the Legislative Assembly:*

In proroguing this Session of the Twenty-second Legislature of the Province of Ontario, I am happy to express my appreciation of the services which you have rendered in the performance of your legislative duties. It has been a memorable Session, not only by reason of the variety and importance of the public questions to which you have given your consideration but also because of the care and business-like dispatch with which you have disposed of an unusually large volume of public business, and the reception of several distinguished visitors.

Since the fourth of March when I first met you here in this Session, you have had twenty-five days of sittings during which nine night sittings were held, not to mention the numerous sessions of your Standing Committees. Altogether you have considered one hundred and seventy-six bills of which one hundred and forty-seven have been adopted. Forty-four private bills have been passed, which is more than you are normally called upon to deal with. It is evident that you have not spared yourselves in accomplishing this task and it is only fitting that I should express my thanks for the conscientious and effective efforts which you have devoted in this way to the service of the people of the Province of Ontario.

Before referring to some of the measures which you have enacted, may I express my pleasure that you have honoured and been honoured by the presence of three very distinguished Canadians. First, Major John W. Foote, V.C., later in the Session, His Eminence James Cardinal McGuigan, and yesterday, Lieutenant-General Guy G. Simonds, C.B.E., C.B., D.S.O., etc.

It would not be possible in a short time to review the many important provisions which you have made for the encouragement and development of our basic industries of farm, forest and mine, the extension of our highways and hydro-electric service, the extension of educational, health and public welfare services, the amendment and clarification of many of our general laws including the codification on the basis of uni-

formity of certain commercial laws, the revision of the statute relating to Police, the enlargement of the powers of our municipalities to enable them to plan their growth and to deal more effectively with current problems, and the amendment of important statutes enacted in the interests of labour. In view of the continuation of the Dominion wartime labour regulations during the period of transition from war to peace, amendments to the labour laws have necessarily been restricted to matters which are not within the scope of the present Dominion Order-in-Council.

I feel that special mention should be made of the creation of a new Department of Travel and Publicity which will give systematic encouragement and guidance in the public interest to the great and growing tourist industry for which our Province has so many natural advantages.

Another new department of the public service, that of Reform Institutions, will be of great value in giving special attention to the reform and rehabilitation of juvenile offenders, as well as greatly improved arrangements for dealing with all who have broken the laws of the land. It will continue the process already begun of modernizing and adapting our penal institutions to the purpose of reform of criminals as well as to the punishment and prevention of crime.

May I commend also the comprehensive revision of the Liquor Laws of this Province to which you have given your serious attention, and express the hope that they will receive the wholehearted support of all citizens of Ontario.

In conclusion, I wish to thank you for the financial provisions for carrying on the affairs of the Province for another year. It is recognized that these provisions are to some extent incomplete pending the conclusion of the Dominion-Provincial Conference from which it is hoped that agreements will emerge which will be of great advantage, not only to the people of Ontario, but to all who live within the Dominion of Canada.

May I thank you again for your efforts and express my trust that under the guidance of Divine Providence the legislation which you have enacted will be of lasting benefit to the people of this Province.

The Provincial Secretary then said:

*Mr. Speaker and Gentlemen*

*of the Legislative Assembly:*
